ORGANIZES

**CERTIFICATE COURSE IN
MEDISURGICAL
SKILLS TRAINING**

MEDISURGICAL SKILLS

Medisurgical Skills are basic procedure skills training that provides multi-disciplinary skills like IV Injection, IM Injection, Suturing techniques, and many others.

Duration: 2 days **Timing:** 9 AM to 5 PM **Batch Strength:** 288 **Date:** 23, 26, 27 & 28 Sept. 20

BROAD TOPICS TO BE COVERED IN THE COURSE

- Intravenous (IV) Insertion
- Intramuscular Injections
- Suturing Techniques
- Catheterisation
- Identifying Cardiac Arrest
- Chain of Survival
- Hands-on CPR
- Adult/Infant CPR

**Medi- Surgical Skill Training
23-28 September 2022**

Jawaharlal Nehru Homoeopathic medical college in Collaboration with Pragma- The Skill & Simulation Centre Organized a Free Medi –Surgical Skill Training for its 2nd BHMS, 3rd BHMS & 4th BHMS students from 23-28 September 2022.

GENERAL DETAILS:-

- ❖ Activity : Medi-Surgical Skill Training
- ❖ Organized By : Jointly by Jawaharlal Nehru Homoeopathic Medical college & PRAGYA- Skill and Simulation Centre Parul University
- ❖ Participated By : 2nd BHMS, 3rd BHMS & 4th BHMS Students of JNHMC
- ❖ Date of Activity : 23/09/2022 - 28/09/2022
- ❖ No. of student Participants : 288
- ❖ Name of Head of the Institute : Dr. Poorav Desai - JNHMC
- ❖ Name of Program Coordinator/ Chief Trainer : Dr. Gaurav Sharma - JNHMC
- ❖ Name of Accompanying Teacher/ Trainer : Dr. Charvy Patel - JNHMC
- ❖ Name of Event Coordinator : Dr. Mrugesh Suthar & Ms. Priyanka Pandya Pragma – Skill & Simulation Centre

Date-04/05/2023&05/05/2023

08/05/2023&09/05/2023

CERTIFICATE COURSE IN COMPREHENSIVE EMERGENCY TRAINING

🕒 Course Duration: 16 Hours **📄 Course Code: 227542** **₹ Fees: 2500**

▶ Introduction to the course

The Comprehensive Emergency Training (C.E.T) program is a comprehensive training initiative designed to equip healthcare professionals with the knowledge and skills necessary to respond effectively in emergency situations. This report provides an overview of the C.E.T program, focusing on four key areas: Basic Life Support (BLS), Advanced Cardiac Life Support (ACLS), Trauma Management, and Labor Management.

▶ Topics Covered & Training

- **Basic Life Support:**
 - Adult CPR techniques
 - Child CPR techniques
 - Infant CPR techniques
 - AMBU breathing techniques
 - AED usage
- **ACLS (Advanced Cardiac Life Support):**
 - Cardiac arrest rhythm identification
 - Defibrillation procedures
- **Trauma Protocols:**
 - Cervical collar application
 - Traction splint techniques
 - Spine board usage
- **Obstetrics and Gynecology (OBGY)**
 - Mechanism of labor
 - Stages of labor
 - Landmarks of the pelvis
 - Diameter of the fetal skull

▶ Objectives of C.E.T.

- a. Enhancing emergency response skills: The training aims to equip participants with the necessary knowledge and skills to effectively respond to various types of emergencies, such as natural disasters, medical emergencies, fires, or terrorist incidents.
- b. Promoting collaboration and coordination: C.E.T fosters teamwork and coordination among different response agencies, ensuring a seamless and coordinated approach during emergencies.
- c. Improving decision-making and leadership: The program focuses on developing strong decision-making abilities and leadership qualities to facilitate effective emergency management and command structure.

▶ Components of C.E.T.

- a. Classroom instruction: Participants receive theoretical knowledge on emergency response principles, incident command systems, risk assessment, communication protocols, and other relevant topics.
- b. Practical exercises: Hands-on training exercises simulate real-world emergency scenarios, allowing participants to apply their knowledge and skills in a controlled environment.
- c. Tabletop exercises: These interactive sessions involve role-playing emergency scenarios, discussing response strategies, and identifying areas for improvement.
- d. Field exercises: Participants engage in realistic field simulations to practice their response skills, test coordination among different agencies, and assess the effectiveness of emergency plans.
- e. Review and evaluation: Regular assessments and feedback sessions are conducted to evaluate participants' performance, identify strengths and weaknesses, and refine the training program accordingly.

▶ Benefits of C.E.T.

- a. Improved emergency response: Participants gain enhanced skills and knowledge, enabling them to respond more effectively and efficiently during emergencies, potentially reducing the loss of life and property.
- b. Enhanced collaboration: C.E.T promotes collaboration and communication among different response agencies, fostering a unified and coordinated approach to emergency management.
- c. Increased confidence: Through practical training exercises, participants develop confidence in their abilities to handle emergencies, leading to better decision-making under pressure.
- d. Strengthened leadership: The program focuses on cultivating strong leadership qualities, equipping participants with the skills necessary to assume command roles during emergencies.
- e. Community resilience: By training a large number of individuals within a community, C.E.T helps build a resilient society better prepared to handle emergencies, fostering a sense of safety and security.

Parul University Limda, Vadodara, Gujarat-391760

Some glimpses of the training:

JAWAHARLAL NEHRU HOMOEOPATHIC MEDICAL COLLEGE HOSPITAL

Attendees: 75 Internship students of batch 2023-2024

developing strong decision-making abilities and leadership qualities to facilitate effective emergency management and command structure.

The trainers, Dr. Murgesh Suthar, Dr. Shreyash Patel, and Dr. Prachi Patel, each specialized in different areas, ensuring a comprehensive and diverse training experience.

The interns were divided into two groups and it was a 2 days program for each group, which integrated all the important and essential topics as:

- 1) Basic Life Support:
 - Adult CPR techniques

CERTIFICATE COURSE IN PRATHAM SIMULATION TRAINING

🕒 Course Duration: 16 Hours **🔗 Course Code: 227543**

▶ Introduction to the course

- The course is designed in such a way that it enables UG scholars, PG scholars and budding Homeopaths to perform general clinical techniques and manage cases an Appropriate way for the recovery of patient.

▶ Course Highlights

- Certificate course in Pratham Simulation Training.
- Ideal for 1st Year BHMS students.
- Ready Reckon guide on basic clinical techniques.

▶ Program Objectives

- To enable the students to perform general clinical techniques like suturing, use of various types of IV interjections and Basic Life Support.

▶ Program Outcomes

- At the end of this program students will have practical knowledge of basic life support like assessment of signs of sudden cardiac arrest, heart attack, stroke, and foreign body airway obstruction, and the performance of cardiopulmonary resuscitation (CPR) and many more clinical cases.

▶ Course Contents

- Basic Life Support, Suturing,
- Use of various types of IV intejections,
- Log roll and Transportation of Patient

▶ Carrier Opportunities

- A novel 'Certificate Course' which will help the students to manage cases requiring skills for maintaining basic life support and other clinical Techniques.
- University run certificate course helping in foreign placements.

CERTIFICATE COURSE IN EMERGENCY RESPONDERS TRAINING FOR HOMEOPATHS

Course Duration: 16 Hours

Course Code: 227544

- ▶ Introduction to the course**
 - The course is designed for UG scholars, PG scholars and budding Homeopaths for enhancing the specific skills to manage an emergency case and provide the best service in the golden hour of emergency.
- ▶ Course Highlights**
 - Certificate course in Emergency Responders Training for Homeopaths.
 - Ideal for 2nd BHMS students.
 - Ready Reckon guide on Emergency Case Management.
- ▶ Program Objectives**
 - To enable the students to provide the best medical aid in case of an Emergency and perform life saving emergency manoeuvres.
- ▶ Program Outcomes**
 - At the end of this program students will have practical knowledge to recognize the seriousness of the patient, Administer appropriate first aid, successful transfer of the victim to medical care system, and assist the medical team.
- ▶ Course Contents**
 - Initial Assessment • Triage management • Log roll/Spine Board • Splinting
 - Head Trauma • Helmet Removal • Transport Technique Application
 - Spine Trauma • C. Collar Application • Airway Management • Thomas splint
- ▶ Carrier Opportunities**
 - A novel 'Certificate Course' which will help the students to provide best medical aid in case of an Emergency and perform life saving emergency manoeuvres.
 - University run certificate course helping in foreign placements.
