Activity Report

INSTITUTE	Parul Institute of Homoeopathy and Research		
DEPARTMENT	Anatomy, PIHR		
ACTIVITY TYPE	Educational visit		
DATE	21.02.2025	Duration	3-4 Hours
YEAR/CLASS	1 st year	No. of Participants	95
RESOURCE PERSON	Dr. Isha Thakur		
DESIGNATION	Assistant Professor of Anatomy, Parul Institute of Homoeopathy & Research.		
CONTACT DETAILS	Ph.- 9459871193 Email- isha.thakur35046@paruluniversity.ac.in		

Details of the Activity

As a part of academic activity a tour was organized by 'Parul Institute of Homoeopathy and Research' for the first year students in "Parul Institute of Medical Science and Research" (PIMSR) on 21st February, 2025. The students on that day were in a joyous mood and enthusiastic manner as they were going to visit the Medical College for the first time. We reached the Medical College sharp at 9:00 am. The Medical College whole heartedly welcomed us; Dr. Parmar, Dr. Jagdish Soni & Dr. Dinesh Kumar was our guide that day, as they were going to show us the Dissection Hall, Anatomy Museum, Histo-Pathology Lab.

1. Dissection Hall

The Dissection Hall of P.I.M.S.R was extremely large which has the capacity of teaching 150 students at a time in 15 groups. We enthusiastically observed that dissection hall, it has two storage tank's room in which 10 undissected cadavers were stored and 7 dissected cadavers were stored. The staff used to store the cadavers by embalming the bodies with the help of embalming machine in which they used to pierce the injection in Femoral or Carotid Artery and enter the fluid for emblamation. They have two mummified bodies for surface landmarks. Having the facility of mortuary room (Cold Storage) for storing the cadavers. They have large amount of dissected organs like upper limb, lower limb, brain, lungs, liver, heart which used to store in large medical containers and buckets. They used to preserve the cadavers by making a fluid which contains mixture of formalin, glycerine, distilled water and spirit which makes 10 litres of preserving fluid per cadaver. The dissection hall has 3 articulated skeletons.

2. Anatomical Museum

The Museum has a brief collection of each and every part of body original as well as the models through which the students can clear their doubt easily. They have the perfect description of each and every part on a chart as well as on the designated labelled plate.

ACCREDITED UNIVERSITY

PARUL INSTITUTE OF
HOMOEOPATHY AND
RESEARCH
DEPARTMENT OF ANATOMY

Museum contains skeletons of both male and female. The museum has a collection of different stages of foetal life. The museum has all the parts of upper limb, lower limb, head, thorax, abdomen and models of muscles as well as the original connection of muscles. There were also the models of embryology.

The most interesting part of the tour was the visit to anatomical museum where the teachers of anatomy Dr. Dinesh Kumar, Dr. Bhakti Pathak, Dr. Isha Thakur and Dr. Selva Panda were clearing the curiosity and doubts of the students.

3. Histo – Pathology Lab

This lab prepares the slide of every tissue. Lab has many binocular electronic microscopes and every desk has the gas burners for the convenience of the students, here the walls of lab were affiliated with charts and labelled diagrams of the slide of tissue as they used to appear under the microscope.

Outcome/Feedback

The purpose of the visit was to enhance their knowledge of Anatomy in practical aspect. Students visited dissection hall, museum & histology lab. They get the exposure of different embryo's & foetal bones. There was huge collection of different specimen in the museum.
