<b>SUSTAINABLE DEVELOPMENT GOALS (SDGs)</b>	<b>SDG – 3; GOOD HEALTH &amp; WELL - BEING</b>		
<b>COLLABORATIVE ACTIVITY UNDER MOU</b>			
<b>SPONSORING AUTHORITY</b>	<b>-</b>	<b>Sponsorship amount:</b>	<b>-</b>

**Objective:**

- To enhance practical knowledge of homoeopathic pharmaceutical processes, To familiarize students with drug sources and methods of preparation, To develop skills in trituration, potentization, dispensing, and storage, To bridge the gap between theoretical knowledge and practical application, To promote standard practices as per the Homoeopathic Pharmacopoeia

**Activity Details:**

The workshop commenced with an inaugural session, followed by an introduction to the significance of homoeopathic pharmacy in clinical practice. The resource person explained various **sources of drugs**, including plant, mineral, and animal origins.

Practical demonstrations were conducted on:

- Methods of drug preparation
- Trituration and potentization techniques
- Preparation of mother tinctures
- Dispensing methods and labeling
- Storage and quality control measures

Students actively participated in the hands-on sessions and clarified their doubts during interactive discussions.

The Department of Homoeopathic Pharmacy expresses sincere gratitude to the resource person, principal, faculty members, and students for their active cooperation and support in making the workshop a success.

**Glimpses of activity:**

**Outcome:**

- Improved understanding of homoeopathic pharmaceutical procedures. Enhanced practical skills among students. Better correlation between pharmacy theory and clinical application. Increased confidence in handling homoeopathic medicines
