

## **Information and Health Education Services Regarding Physical Health Care**

The University has consistently worked towards providing students with top-tier clinical training through its teaching hospitals and laboratories. Its teaching hospitals include Parul Sevashram Hospital, 2 Ayurvedic hospitals, and 4 homeopathic hospitals, all fully compliant with regulatory councils. Together, these facilities offer a total of 1,458 beds, 2 peripheral health centers, an advanced Clinical Skills Lab (Advanced Skills & Simulation lab), 7 radiology and imaging services, 3 blood banks and central laboratory services, an emergency medicine department, 5 physiotherapy centers, 5 yoga centers, two Panchkarma units, 20 operating theatres, 100 critical care units, and 7 pharmacies, all of which contribute to vital hands-on experience. The University's teaching hospital includes 14 broad specialty clinical departments and 14 superspecialty departments, all equipped with state-of-the-art infrastructure. During the academic year 2023-24, the hospital's bed capacity was enhanced to 1,000. Its clinical laboratory holds NABL accreditation for its focus on quality. The hospital is staffed with over 110 doctors, 369 nurses, and various other paramedical professionals, and features advanced equipment such as five-part cell counters, fully automated biochemistry analyzers, Beckman Coulter hormone analyzers, Storz HD laparoscopic systems, and Zeiss microscopes, among others.

The University, through its network of teaching hospitals, has consistently worked to provide adequate facilities for both outpatient and inpatient care. During the academic year 2023-24, its allopathy, homeopathy, and ayurveda teaching hospitals recorded significant outpatient activity. Parul Sevashram Hospital saw an average of 1,362 outpatients daily, Parul Ayurved Hospital 276, Khemdas Ayurveda Hospital 250, Jawaharlal Nehru Homeopathic Medical College Hospital 292, Parul Institute of Homeopathic Research-Hospital 270, Sainath Hospital (Ahmedabad) 260, and Sainath Homeopathic Hospital (Rajkot) 280. Clinical learning for students was facilitated through rotational postings across outpatient departments (OPDs), inpatient departments (IPDs), and laboratories in the respective clinical disciplines.

With respect to inpatient capacity, the University's teaching hospitals offer the following daily accommodations: 175 beds at Parul Sevashram Hospital, 13 at Parul Ayurved Hospital, 25 at Khemdas Ayurveda Hospital, 4 at Jawaharlal Nehru Homeopathic Medical College Hospital, 4 at Parul Institute of Homeopathic Research-Hospital, 16 at Sainath Hospital (Ahmedabad), and 280 at Sainath Homeopathic Hospital (Rajkot). The University has provided clinical training to students across these hospitals, including 165 undergraduate and

184 postgraduate students at Parul Sevashram Hospital, 181 undergraduate and 73 postgraduate students at Parul Ayurved Hospital, and 285 undergraduate and 65 postgraduate students at Jawaharlal Nehru Homeopathic Medical College Hospital.

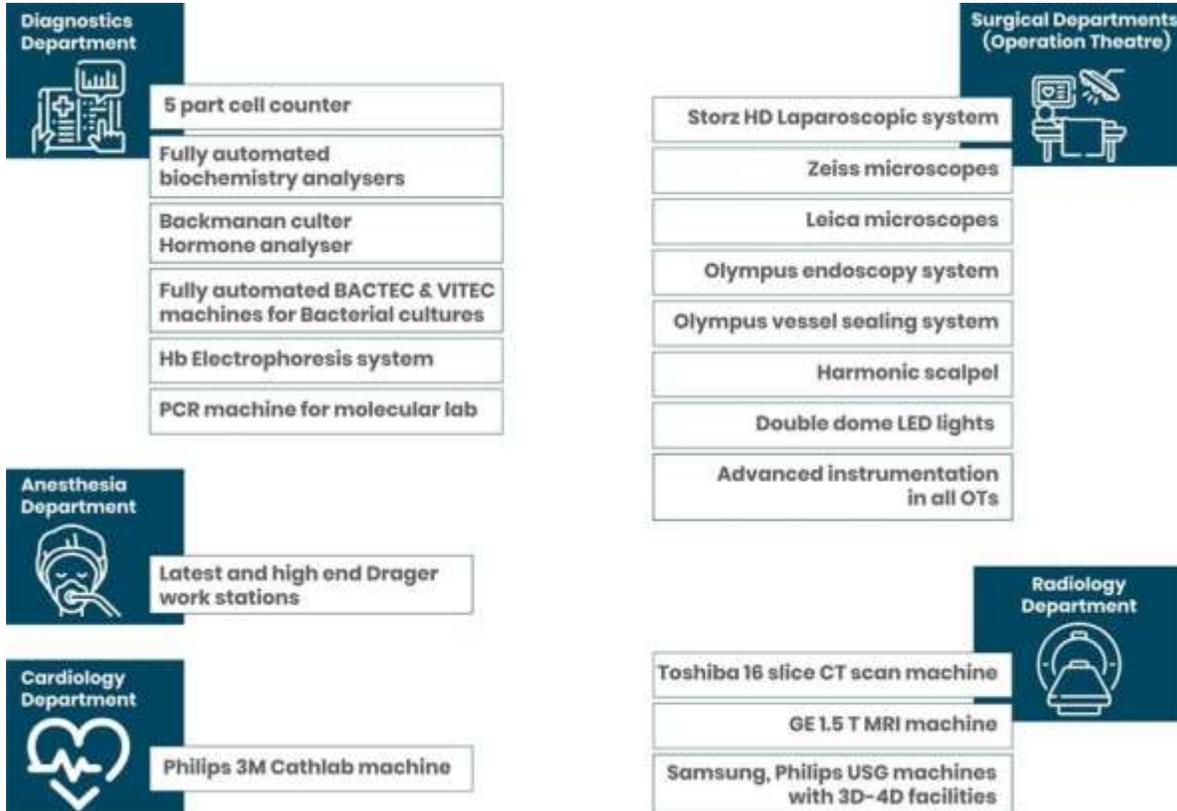

The University has been strongly committed to ensuring the welfare of its teaching and non-teaching staff through various measures that focus on economic, health, professional, and mental welfare. To ensure the health of staff, the University provides concessional medical facilities at its Parul Sevashram Hospital. This ensures that their health concerns are met effectively and efficiently. Additionally, the special Arogya card has been created for staff members to avail special health benefits at the University's Hospital.

**Parul Sevashram Hospital is one of the largest tertiary care hospitals of the state, with 14 Broad specialty clinical departments and 13 Superspecialty departments.**

## Various initiatives taken by THS for sustainable development of health

Total Health Solutions (THS) has undertaken various initiatives to promote sustainable health development, focusing on innovation and community impact. In a strategic move, THS has collaborated with the Faculty of Medicine at Parul University to leverage technology for healthcare solutions. This partnership aims to enhance accessibility, streamline healthcare services, and empower individuals to take charge of their well-being. Through digital tools, health awareness campaigns, and eco-friendly practices, THS is not only advancing healthcare delivery but also ensuring its sustainability. These efforts reflect a forward-thinking approach toward building healthier communities through education, technology, and responsible innovation.

### Healthcare Solutions for faculty Members

### Healthcare Solutions for Students

Total Health Solutions (THS) has unveiled its latest innovation — the Mobile Medical Van — a significant step toward accessible and inclusive healthcare. Designed to reach underserved and remote areas, this fully equipped van offers essential medical services, including diagnostics, consultations, and basic treatments. It reflects THS's commitment to bridging healthcare gaps and promoting wellness in every corner of society. With trained medical professionals and smart health technologies on board, the mobile unit ensures prompt, quality care on the go. This initiative not only enhances healthcare outreach but also supports THS's mission of creating a healthier, more connected community.
