

Evidence-Based Case Studies of Surgical Diseases Cured by Homeopathy

Date: 1st July 2025

Venue: PIMSR Auditorium, Parul University

Organized by: Research Cell and Prominent event cell, Jawaharlal Nehru Homoeopathic Medical College (JNHMC)

Coordinator: Dr. Zankhana Desai and Dr. Naresh Sonu Bhusara

Jawaharlal Nehru Homoeopathic Medical College

Organises

WORKSHOP

Topic: Evidence-Based Case Studies of Surgical Diseases Cured by Homeopathy and What Must Be Studied from Different Materia Medica Tailored for both BHMS and MD students

Dr. Ravi Singh

Prominent Homoeopathic
Physician

1st July 2025

2:00 pm onwards

PIMSR Auditorium

1. Introduction

Jawaharlal Nehru Homoeopathic Medical College (JNHMC), under the aegis of Parul University, successfully conducted a workshop on 'Evidence-Based Case Studies of Surgical Diseases Cured by Homeopathy' on 1st July 2025 at the PIMSR Auditorium. The workshop aimed to highlight the scientific efficacy and therapeutic success of homoeopathy in treating conditions conventionally managed through surgical interventions.

2. Inauguration Ceremony

The event commenced with an auspicious lamp-lighting ceremony followed by a warm welcome address. The workshop was inaugurated by Dr. Poorav Desai, Principal of JNHMC, who emphasized the importance of integrating evidence-based clinical documentation in Homoeopathy. His inspirational speech encouraged young practitioners and students to pursue research-backed case study documentation.

3. Resource Person

The keynote speaker for the event was Dr. Ravi Gupta, a distinguished homoeopathic physician known for his contributions to the management of surgical cases through classical Homoeopathy. His presentation included:

- Documented case studies with clinical photographs and diagnostic records
- Pathological conditions such as abscess, piles, fissure, fistula, benign tumors, fibroadenoma, and sebaceous cysts
- Explanation of remedy selection based on individualization
- Follow-ups showing regression without surgical intervention
- Integration of modern diagnostics with Homoeopathic principles

GLIMPSES

4. Participants

The workshop witnessed enthusiastic participation from undergraduate and postgraduate students, faculty members, and clinical practitioners. The interactive Q&A session fostered a deeper understanding of remedy application and follow-up protocol in surgical cases.

5. Highlights of the Workshop

- Real-time discussion on cured surgical cases with diagnostic evidence
- Demonstration of repertorization techniques used in acute and chronic surgical conditions
- Emphasis on ethical record keeping and documentation
- Exploration of Homoeopathy as a first-line or supportive treatment to surgery

6. Conclusion

The workshop concluded with a vote of thanks proposed by the Workshop Coordinator, Dr. Ankur Desai, who acknowledged the support of the organizing committee, faculty members, and students. He also extended gratitude to Dr. Ravi Gupta for his insightful session and to Dr. Poorav Desai for his constant encouragement.

The session proved to be intellectually enriching and clinically inspiring, underlining the growing importance of evidence-based practice in Homoeopathy.
