

Field Visit Report – Agadtantra Department

Parul Institute of Ayurved, Parul University Date: 4th–5th December 2025

Event Details

- **Location:** Abhinav Vrajmandal Sri Manorama Goloktheerth, Nandgav
- **Topic:** Folklore Vaidya using *Agada Tantra* concepts in *Visha Chikitsa*
- **Faculty In-charge:** Dr. Harisankar K. T
- **Participants:** 2nd Professional BAMS Students

Objectives

- Understand traditional folklore practices in poison management.
- Observe practical application of *Agada Tantra* principles.
- Identify local medicinal plants used in toxic conditions.
- Document indigenous knowledge and correlate with classical Ayurveda.

Highlights

- Interaction with folklore vaidya on snakebite, scorpion sting, and insect poisoning cases.
- Observation of herbal drugs with *Vishaghna* (anti-toxic) properties.
- Use of therapies like *lepa*, *kwatha*, and *nasya* based on *Dosha* predominance.
- Emphasis on early intervention and experiential knowledge.

Outcomes

- Gained practical exposure to traditional *Visha Chikitsa*.
- Correlated classical *Agada Tantra* concepts with field practices.
- Appreciated indigenous knowledge and its clinical relevance.

Conclusion

The visit provided valuable insights into folklore medicine and its alignment with Ayurvedic toxicology. It enhanced students' understanding of *Agada Tantra* and emphasized the importance of preserving traditional healing practices.
