

Field Visit Report – Dravyaguna Vigyan

Parul Institute of Ayurved, Parul University Date: 4th–5th December 2025

Event Details

- **Activity Type:** Field Visit & National Seminar
- **Title:** Uses & Importance of Panchagavya
- **Location:** Shri Godham Maha-Tirth Pathmeda, Rajasthan
- **Participants:** 50 (2nd Year BAMS Students)
- **Expert:** Dr. Satej Banne, Professor, Dept. of Dravyaguna

Objectives

- Correlate theoretical Dravyaguna knowledge with real-life flora identification
- Enhance understanding of biodiversity and medicinal plants
- Sensitize students to conservation and traditional knowledge systems

Highlights

- Two-day seminar on Panchagavya and sustainable living practices
- Field visit across Pathmeda campus and Sirohi district landscapes
- Observation of **100+ medicinal plant species** (trees, shrubs, herbs, climbers)
- Practical training in plant identification (leaf, stem, flower, habitat)
- Exposure to organic farming and Panchagavya-based cultivation methods
- Expert guidance on therapeutic uses, conservation, and ecological significance

Outcomes

- Strengthened botanical and pharmacognosy concepts
- Improved skills in plant identification and ecological observation
- Greater appreciation for biodiversity, Ayurveda, and sustainable agriculture
- Bridged classroom learning with experiential field exposure
