

Field Visit Report – Primary Health Centre (PHC), Waghodia

Parul Institute of Ayurved, Parul University Date: 4th October 2025

Event Details

- **Location:** PHC, Waghodia
- **Participants:** 100 BAMS students (3rd year), 2 faculty members
- **Time:** 9:30 AM – 1:00 PM
- **Organized by:** Dept. of Swasthavritta & Yoga

Key Learning Outcomes

- **Tuberculosis Program (NTEP):**
 - Orientation on updated TB protocols, U DST, CBNAAT testing, Nikshay portal, and DR-TB management.
- **Malaria Control:**
 - Training on RDT kits, NFME framework, vector control, and community participation.
- **ASHA Interaction:**
 - Insights into maternal/child health, vaccination, disease surveillance, and grassroots health promotion.

Summary

The PHC visit provided **practical exposure to national health programs and primary healthcare delivery**. Students gained hands-on understanding of TB and malaria control strategies, along with the role of ASHA workers in community health. The visit bridged theory with practice, aligning with NCISM curriculum requirements and strengthening awareness of preventive and promotive healthcare.
