**SEE** - Semester End Examination, **T** - Theory, **P** - Practical

### Course Content

**W** - Weightage (%) , **T** - Teaching hours

Sr.	Topics	W	T
1	<b>Theoretical Framework:</b> Meaning and Scope of accounting, Accounting Concepts and Principles –Accounting Conventions, Accounting Standards–Concepts, Objectives, Benefits, Accounting Policies, International Financial Reporting Standards (IFRS):- Need and procedures of IFRS , Distinction between IFRS & GAAP	25	15
2	<b>Accounting Process:</b> Basis of Accounting: Accrual basis and cash basis. Types of accounts: Personal, Real and Nominal, Rules of debit and credit, Journal Entries. Introduction of journal and various ledgers - Examples related to recording the transaction into journal, posting into ledger, balancing & preparation of trial balance.	25	15
3	<b>Measurement of business income</b> <b>Net income:</b> the accounting period, the continuity doctrine and matching concept. Objectives of measurement. <b>Revenue recognition:</b> Recognition of expenses. <b>Depreciation accounting:</b> Purpose of charging depreciation; Factors affecting depreciation; Methods of charging Depreciation: Straight Line Method (Single Asset and Addition of Asset), Written Down Value Method (Single Asset and Addition of Asset), Annuity Method (Single Asset), Sinking Fund Method (Single Asset); Computation and accounting treatment of depreciation.	25	15
4	<b>Final Accounts &amp; Rectification of error:</b> Accounting Errors, Types of Errors, Errors affecting to Trial Balance and Errors which are not affecting to Trial balance, Rectification- of errors affecting trial balance. Preparation of trial balance, Profit and Loss Account and Balance Sheet of Sole Proprietorship firms	25	15
<b>Total</b>		<b>100</b>	<b>60</b>

### Reference Books

1.	<b>Fundamental Accountancy</b> By S.N. Maheshwari
2.	<b>Financial Accounting</b> By Tulsian P. C.   Pearson Education
3.	<b>Advanced Accounting</b> By M.C.Shukla and T.S.Grewal   Sultan Chand Publication

### Course Outcome

**After Learning the Course the students shall be able to:**

- CO1 To understand the basics of accounting practices
- CO2 To prepare journal and ledger in books of accounts
- CO3 To evaluate and measure the business income and its accounting treatment
- CO4 To evaluate the financial statements of Sole Proprietors

**Course:** B.Com(A.Y. 2023-24)

**Semester:** 1

**Prerequisite:** Basic Knowledge of business and economics

**Rationale :** Economics is an essential part of business firms. Hence it is necessary to understand basic concepts of microeconomics.

Sr.	Topics	W	T
1	<b>Nature &amp; Scope of Business Economics</b> Introduction, Nature of business economics, Scope of business economics, Basic Problems of an Economy & Role of Price Mechanism, Types of Economy	25	15
2	<b>Theory of Demand and Supply</b> Meaning of Demand & Supply, The demand & Supply Schedule, Demand Function & Supply function, Law of Demand & Supply Individual and Market Demand & Supply Determinants of Demand & Supply, Demand & Supply Curve, Equilibrium with supply & Demand Curve, Demand & Supply Shifts Effects of a shift in Supply or Demand, Interpreting Changes in Price & Quantity, Types of Elasticity of Demand & Supply, Calculating Elasticity, Measurement of Elasticity, Degree of Elasticity, Consumer Equilibrium – Utility Analysis, Consumer Equilibrium – Indifference Curve Analysis,	25	15
3	<b>Theory of Production, Revenue and Cost</b> Theory of Production, Factors of Production, Production function, Returns to scale, Return to factors, Theory of Cost, Cost Function, Types of Cost, Cost curves in Long run & short run. Theory of Revenue.	25	15
4	<b>Market Structure:</b> Meaning & Characteristics of Perfect Competition, Price & output Determination under perfect Competitive Market, Short Run & Long Run Equilibrium, Imperfect Competition- Basic Concept of Monopoly, Features of Monopoly Equilibrium under Monopoly Short & Long run, Concept of Monopolistic Competition, Features of Monopolistic Competition, Price and output determination under Monopolistic Competition, Meaning & Characteristics of Oligopoly, Kinked demand curve.	25	15
<b>Total</b>		<b>100</b>	<b>60</b>

### Reference Books

1.	<b>Principal of Economics</b> By N. Gregory Mankiw(2002)   Thomson (India)
2.	<b>Koutsoyiannis A., (2006): Modern Microeconomics, MacMillan Press limited, London, 2nd Edition-7th Re-print (Thrice).</b>
3.	<b>Microeconomics</b> By H L AHUJA   S CHAND & CO   LATEST
4.	<b>Modern Microeconomics Theory and Application,</b> By Ahuja H.L   S. Chand, New Delhi .

### Course Outcome

**After Learning the Course the students shall be able to:**

- CO1 To understand the basic concepts of economics, nature of production and its relationship to Business operations.  
 CO2 To apply marginal analysis to the “firm” under different market conditions.  
 CO3 To analyse the causes and consequences of different market conditions.  
 CO4 To integrate the concept of price and output decisions of firms under various market structure.

**Course:** B.Com(A.Y. 2023-24)

**Semester:** 1

**Prerequisite:** Knowledge of Communication in an Organization and Presentation Skills

**Rationale :** Basic Communication Skills are essential for all Commerce students

8.	<b>Oxford Practice Grammar,</b> By John Eastwood   Oxford University Press

**Course Outcome****After Learning the Course the students shall be able to:**

After Learning the course, the students shall be able to:

1. Understand the importance of creative and critical thinking.
2. Develop four basic skills (LSRW)
3. Expand vocabulary with proper pronunciation.
4. Comprehend the basics of English grammar.
5. Read & write effectively for a variety of contexts.
6. Develop confidence in speaking skills.

Course: BTech

Semester: 1

Prerequisite: Basic Computer Knowledge and Mathematics.

**Rationale :** This course provides an introduction to the fundamentals of digital marketing, covering essential concepts, strategies, and tools used in the field. Students will explore various aspects of digital marketing, including search engine optimization (SEO), social media marketing, email marketing, content marketing, and analytics..

Sr.	Topics	W	T
1	<b>Introduction to Digital Marketing:</b> Introduction to digital marketing, Evolution of digital marketing, importance and benefits of digital marketing, Overview of digital marketing channels	15	7
2	<b>Search Engine Optimization (SEO):</b> Understanding search engines and how they work, On-page and off-page SEO techniques, Keyword research and analysis, SEO tools and analytics	25	9
3	<b>Social Media Marketing:</b> Introduction to social media marketing, Social media platforms and their features, Content creation and curation for social media, Social media advertising and campaigns, Social media analytics and measurement	20	7
4	<b>Content Marketing:</b> Understanding content marketing, Content strategy and planning, Content creation and distribution, Content promotion and amplification, Content marketing analytics	25	11
5	<b>Digital Marketing Analytics:</b> Introduction to digital marketing analytics, Key performance indicators (KPIs) in digital marketing, Web analytics tools and platforms, Data analysis and interpretation, Reporting and optimization strategies	15	11
<b>Total</b>		<b>100</b>	<b>45</b>

### Reference Books

1.	<b>"Digital Marketing for Dummies" (TextBook)</b> By by Ryan Deiss and Russ Henneberry   Wiley
2.	<b>"Digital Marketing: Strategy, Implementation and Practice"</b> By by Dave Chaffey and Fiona Ellis-Chadwick   Pearson Education
3.	<b>"Influence: The Psychology of Persuasion" by Robert B. Cialdini</b>

## Course Outcome

### After Learning the Course the students shall be able to:

After Learning the Course, the students shall be able to:

1. Understand the core principles and concepts of digital marketing.
2. Apply various digital marketing techniques, such as SEO, social media marketing, email marketing, and content marketing.
3. Utilize digital marketing tools and analytics to measure and optimize campaign performance.
4. Develop effective digital marketing strategies for different target audiences and objectives.
5. Demonstrate proficiency in planning, executing, and evaluating digital marketing campaigns.

## List of Practical

1.	Conduct keyword research for a chosen topic or industry.
2.	Create and optimize a social media profile/page for a business.
3.	Design and execute an email marketing campaign using an email marketing platform.
4.	Develop a content marketing plan for a specific target audience.
5.	Analyze website traffic and user behavior using Google Analytics.
6.	Set up and monitor social media advertising campaigns on platforms like Facebook or Instagram
7.	Create a digital marketing strategy for a hypothetical business or organization.
8.	Present a digital marketing campaign report, including key metrics and insights.

Course: BCA

Semester: 1

Prerequisite: Basic knowledge of Data and Data Processing

**Rationale :** To acquire the fundamental knowledge of basic database system concepts, normalization and SQL programming. To make students understand the database development activities, such as, data modeling, creation of databases and posing complex SQL queries during the system development cycle. Also, introduce the students to using and implementing database systems for certain commercial applications.

### Teaching and Examination Scheme

Teaching Scheme					Examination Scheme					Total
Lecture Hrs/Week	Tutorial Hrs/Week	Lab Hrs/Week	Seminar Hrs/Week	Credit	Internal Marks			External Marks		
					T	CE	P	T	P

SEE - Semester End Examination, T - Theory, P - Practical

### Course Content

W - Weightage (%) , T - Teaching hours

Sr.	Topics	W	T
1	<b>Introduction to Databases</b> Basic Concepts: Data, Database, Database systems, DBMS, Purpose of Database system, Characteristics of Database, Advantages and Disadvantages of DBMS, Database Languages, Three level architecture, Various components of a DBMS	12	6
2	<b>Data Model ,ER Diagram and Keys</b> <b>Data Model :</b> The importance of data models, Data Model Classification, Tables, Rows, Columns, Entity sets, Attributes, Types of entities, Relationships and types of relationships, Database modelling using entity and relationships, Enhanced entity relationship diagrams. <b>Keys:</b> Super key, Candidate keys, Primary key, Entity integrity constraints, Referential integrity constraints.	18	10
3	<b>Database Design</b> Structures of Good Database Design, Database design process, Anomalies in A Database, Functional dependencies (lossless decomposition, dependency preservation, closure set of FD, canonical cover, lossless joins). <b>Normalization:</b> 1NF, 2NF, 3NF, BCNF and 4NF	20	10
4	<b>Query Processing and Transaction</b> <b>Query Processing:</b> Query processing phases, Query optimization techniques, Measures Of Query Cost <b>Transaction:</b> Transaction Concepts, Features of Database Transaction. Concurrency Control in Database - Lock Base, Time Stamp Base, Validation Base Protocols Database Recovery System.	25	9
5	<b>Structure Query Languages</b> Introduction to SQL, Overview of SQL, Basic queries in SQL, Advanced queries in SQL, Functions in SQL, Basic data retrieval, Aggregation, Categorization, Updates in SQLs, Views in SQL, Different types of views, Theoretical updatability of views.	25	10
<b>Total</b>		<b>100</b>	<b>45</b>

### Reference Books

1.	<b>Database System Concepts</b> By Silberschatz, Korth, Sudarshan   McGraw Hill Publication   4th Edition
2.	<b>Database Systems, Concepts, Design and Applications</b> By S K Singh   Pearson Edition
3.	<b>Database Management Systems</b> By Raghu Ramakrishnan, Johannes Gehrke   McGraw Hill Publication
4.	<b>Fundamentals of Database Systems</b> By Elmsari, Navathe   Pearson Education (2008)   5th Edition

## Course Outcome

After Learning the Course the students shall be able to:

1. Define and describe database concepts and models.
2. Identify need of relational database design.
3. Describe and apply normalization technique for database design.
4. Apply knowledge of database query language.

## List of Practical

1.	Design a Database and create required tables. For e.g. Bank, College Database
2.	Apply the constraints like Primary Key, Foreign key, NOT NULL to the tables.
3.	To Study a different DDL Commands like create, Drop ,Alter and Truncate
4.	To Study a different TCL Commands like commit, save point, Rollback etc.
5.	To Study a different DQL Commands.
6.	To Study a different DCL Commands.
7.	To Study a different Grouping Queries.
8.	To Study a different operators in SQL.
9.	Write the query for implementing the following functions: MAX(),MIN(),AVG(),COUNT()
10.	Write the queries to implement the joins.

Course: BCA

Semester: 2

Prerequisite: Knowledge of Statistics

**Rationale :** Data mining is the essential component of decision support systems for the modern-day industry and business. These techniques enable the knowledge worker to make better and faster decisions. The objective of this course is to introduce the student to various Data Mining concepts and techniques. A database perspective of an open-source application is used throughout the course to introduce principles, algorithms, architecture, design, and implementation of data mining techniques. Learning this course would improve the employment potential of students in the information management sector.

					T	CE	P	T	P	
3	-	2	-	4	20	20	20	60	30	150

SEE - Semester End Examination, T - Theory, P - Practical

### Course Content

W - Weightage (%) , T - Teaching hours

Sr.	Topics	W	T
1	<b>Fundamentals of data mining</b> Describe the concept of Data Mining, Data mining: History, strategies, techniques, applications, challenges of data mining, Future of data mining, <b>Describe types of Data:</b> Types of Data: Database Data, Data Warehouses, Transactional Data, Other Kinds of Data.	10	8
2	<b>Objects, Attributes, &amp; Statistical Description of Data</b> Explain Mining techniques and Attribute Relation File Format (ARFF): Data Attribute (Nominal Attributes, Binary Attributes, Ordinal Attributes, Numeric Attributes, Discrete versus Continuous Attributes. <b>Solve basic Statistical calculations on Data:</b> Mean, Median, and Mode; Measuring the Dispersion of Data: Range, Quartiles, Variance, Standard Deviation, and Interquartile Range using WEKA.	20	8
3	<b>Data Preprocessing</b> <b>Describe the aspect of data preprocessing:</b> Preprocess the Data, Major Tasks in Data Preprocessing. <b>Explain the concept of Data Cleaning &amp; Integration:</b> Data Cleaning: Missing Values, Noisy Data, Data Cleaning as a Process. <b>Data Integration:</b> Entity Identification Problem, Redundancy, and Correlation Analysis, Tuple Duplication, Data Value Conflict Detection and Resolution, Use WEKA for cleaning and integration	25	8
4	<b>Classification</b> <b>Explain Decision Trees and clustering:</b> Decision tree: ID3, Probability-based solving, Concepts of Clustering, Using WEKA for classification and clustering	15	8
5	<b>Data Warehouse &amp; OLAP Technology</b> <b>Apply the concept of Data warehousing using WEKA solution:</b> Data Warehouse, Differences between Operational Database Systems and Data Warehouses, Enterprise Warehouse, Data Mart, and Virtual Warehouse.	20	8
6	<b>Data Mining Tool: WEKA</b> Install and Configure WEKA Tool: Basic of WEKA, Installing WEKA, WEKA data file format, Data visualization in WEKA, Data filtering, Using the concepts of data mining with WEKA	10	5
<b>Total</b>		<b>100</b>	<b>45</b>

## Reference Books

1.	<b>Data Mining Concepts and Techniques</b> By Jiawei Han and Jian Pei   Morgan Kaufmann Publishers   Third
2.	<b>Fundamentals of Data Warehouses</b> By M.Jarke, M Lenzerni
3.	<b>Principles of Data Mining</b> By David Hand, Heikki Mannila, Padhraic Smyth , PHI
4.	<b>Data Mining: Methods and Techniques</b> By A B M Shawkat Ali, Saleh A, Wasimi, CENGAGE Learning
5.	<b>Data Mining Techniques</b> By Arun K. Pujari   Universities Press

## Course Outcome

After Learning the Course the students shall be able to:

1. Describe the concept of Data Mining & its attributes
2. Explain the concept of Data Cleaning & Integration and decision Trees and clustering
3. Demonstrate WEKA Explorer, Mining techniques and Attribute Relation File Format (ARFF).
4. Compare various Data Mining techniques available in WEKA

## List of Practical

1.	<b>Create following Three Tables.</b> <b>1. Salesman</b> SNUM SNAME CITY COMMISSION  1001 PIYUSH LONDON 12% 1002 NIRAJ SURAT 13% 1003 MITI LONDON 11% 1004 RAJESH BARODA 15% 1005 ANAND NEW DELHI 10% 1006 RAM PATAN 10% 1007 LAXMAN BOMBAY 09% SNUM: A Unique number assign to each salesman. SNAME: The name of salesman. CITY: The location of salesman. COMMISSION: The salesman commission on order. <b>2. Customer</b> CNUM CNAME CITY RATING SNUM 2001 HARDIK LONDON 100 1001 2002 GITA ROME 200 1003 2003 LAXIT SURAT 200 1002 2004 GOVIND BOMBAY 300 1002 2005 CHANDU LONDON 100 1001 2006 CHAMPAK SURAT 300 1007 2007 PRATIK ROME 100 1004 CNUM: A Unique number assign to each customer. CNAME: The name of customer. CITY: The location of customer. RATING: A level of preference indicator given to this customer. SNUM: A salesman number assign to this customer. <b>3. Order</b> ONUM AMOUNT ODATE CNUM SNUM CNUM 3001 18.69 10/03/99 2008 1007
----	---

3002	767.19	10/03/99	2001	1001
3003	1900.10	10/03/99	2007	1004
3004	5160.45	10/03/99	2003	1002
3005	1098.25	10/04/99	2008	1007
3006	1713.12	10/04/99	2002	1003
3007	75.75	10/05/99	2004	1002
3008	4723.00	10/05/99	2006	1001

3010	9898.87	10/06/99	2006	1001

ONUM: A Unique number assign to each Order. AMOUNT: Amount of order in Rs.

ODATE: The date of order.

CNUM: The number of customer making the order. SNUM: The number of salesman credited with the sale.

**Solve following request with the help of SQL query.**

1. Produce the order no, a mount and date of all orders.
2. Give all the information about all the customers with salesman number 1001.
3. Display the information in the sequence of city, sname, snum, and Commission.
4. Calculate the average amount ordered.
5. Count the no. of salesmen currently having orders.
6. Find the largest order taken by each salesman on each date.
7. Find the largest order taken by each salesman on 10/03/1997.
8. Count the no. of different non NULL cities in the Customer table.
9. Find out each customer's smallest order.
10. Find out the customer in alphabetical order whose name begins with 'G'
11. Count the no. of salesmen registering orders for each day.
12. List all salesmen with their % of commission.
13. Display the no. of order for each day in the following format. dd-mon-yy.
14. Assume each salesperson has a 12% commission. Write a query on the order table that will produce the order number, salesman no and amount of commission for that order.
15. Find the highest rating in each city in the following format:
16. List all customers in descending order of rating.
17. List all salesmen in London who had at least one customer located there as well.
18. List all salesmen in London who didn't have any customer there.

**2. PL/SQL Programs**

1. Hello World Program in PL/SQL.
2. PL/SQL Program To add Two Numbers.
3. PL/SQL Program For Prime Number.
4. PL/SQL Program To Find Factorial of a Number.
5. PL/SQL Program to Print Table of a Number.
6. PL/SQL Program for Reverse of a Number
7. PL/SQL Program for Fibonacci Series
8. PL/SQL Program to Check Number is Odd or Even
9. PL/SQL Program to Reverse a String
10. PL/SQL Program for Palindrome Number
11. PL/SQL Program to Swap two Number
12. PL/SQL Program for Armstrong Number
13. PL/SQL Program to Find Greatest of Three Numbers

**3. PL/SQL Cursor Programs**

1. Write a Program for Implicit Cursor
2. Write a Program For Explicit Cursor

**4. Trigger Programs**

Create three tables

Student (Roll\_no, Name, Contact, Marks) Student\_copy (Roll\_no, Contact)

Student\_update\_copy (Roll\_no, New\_Contact, Old\_contact)

- A. Create a trigger to insert Roll no and Contact number of student on insertion of any record in Table Student.
- B. Create a trigger to insert Roll no New Contact number and old Contact number of student on updation of contact

	number in Table Student.
<b>5.</b>	<b>Procedure Programs.</b> <ol style="list-style-type: none"><li>1. Write a procedure to insert data in employee table.</li><li>2. Write a procedure to update contact number of employee in employee table.</li><li>3. Write a procedure to find name of manager for given employee id.</li><li>4. Write a procedure to get all the details (emp_id, name, city of residence, company name, city of work, manager name, salary) of given employee id.</li><li>5.</li></ol>

**Course:** BBA

**Semester:** 1

**Prerequisite:** Basic Computer knowledge and Internet Surfing

**Rationale :** Establishes foundational understanding: Provides students with a clear definition and historical context of IoB, laying the groundwork for further exploration. Identifies key technologies: Introduces students to the essential technologies and methodologies used in IoB, enabling them to grasp the technical aspects of the field. Highlights potential applications: Illustrates the potential of IoB across various domains, motivating students to delve deeper into specific areas of interest.

2.	<b>Big data analytics with R and Hadoop</b> By VigneshPrajapati   SPD, Pub. Year 2013
3.	<b>Getting Started with the Internet of Things</b> By Cuno Pfister

### Course Outcome

**After Learning the Course the students shall be able to:**

1. Formulate strategies for addressing ethical and legal challenges in IoB
2. Critique ethical considerations in behavior tracking and analysis.
3. Apply tools and methods for analyzing behavioral data in various scenarios.
4. Compare different techniques for behavioral data collection.
5. Explain the fundamental principles of IoB

**Course:** B.Sc.

**Semester:** 1

**Prerequisite:** Shall have the basic knowledge about environmental studies

**Rationale :** Will understand the basic interface between climate change and sustainability.

**Course Outcome**
**After Learning the Course the students shall be able to:**

1. Identify the complexity and operations of governance systems and processes on international, national, and local levels.
2. Explain the differences between government and governance and the various ideas and meanings attached to the goal of sustainable development.
3. Critically analyze policy-making processes in regard to sustainability issues.
4. Apply high-quality written and verbal communication skills
5. Work effectively in a team and in tutorial or workshop situations

**Course:** BTech

**Semester:** 1

**Prerequisite:** Basic numeracy skill

**Rationale :** Mathematical aptitude refers to the ability to reason, think critically, and apply mathematical principles to solve problems and make sense of the world around us.

**Course Outcome**
**After Learning the Course the students shall be able to:**

After completion of the course, Students will be able to,

- Analyse and interpret mathematical problems, devise appropriate strategies, and apply relevant mathematical concepts and techniques to find solutions.
- Comprehend and manipulate numerical information effectively, make accurate calculations, and interpret numerical data in various contexts.
- Think critically and logically, recognize patterns and relationships, and construct logical arguments using mathematical principles.
- Apply these concepts and techniques to solve real-world situations.

Course: BCA

Semester: 2

Prerequisite: Knowledge of Basic English-I

Rationale : Knowledge of Communication is essential for students.

## Course Outcome

### After Learning the Course the students shall be able to:

After Learning the course the students shall be able to:

1. Construct grammatically correct sentences.
2. Develop and deliver professional presentation skills
3. Develop confidence in speaking skills.
4. Develop the skills of critical thinking.
5. Compose different types of written communication.

**Course:** BCA

**Semester:** 2

**Prerequisite:** basic awareness of personal values, social behavior, and Indian culture is desirable.

**Rationale :** IPDC aims to prepare students for the modern challenges they face in their daily lives. Promoting fortitude in the face of failures, Unity amongst family discord, Self-discipline amidst Distractions... and many more priceless lessons. The course focuses on morality and character development at the core of student growth, to enable students to become self-aware, sincere, and successful in their many roles - as an ambitious student, reliable employee, caring family member, and considerate citizen.

### Course Content

W - Weightage (%) , T - Teaching hours

Sr.	Topics	W	T
1	<b>Introduction and Remaking Yourself</b> Restructuring Yourself: Students learn how self-improvement enables them to secure a bright future for themselves. They will learn 6 powerful thought-processes that can develop their intellectual, physical, emotional, and spiritual quotients	7	2
2	<b>Remaking Yourself</b> Power of Habit: Students will undergo a study of how habits work, the habits of successful professionals, and the practical techniques that can be used to develop good habits in their life.	7	2
3	<b>Learning from Legends</b> Tendulkar & Tata: Students will learn from the inspirational lives of India's two legends, Sachin Tendulkar and Ratan Tata. They will implement these lessons through relatable case studies.	7	2
4	<b>From House to Home</b> Listening & Understanding: Active listening is an essential part of academic progress and communications. Students will learn to listen with their eyes, ears, mind, and heart.	7	2
5	<b>Facing Failures</b> Welcoming Challenges: This lecture enables students to revisit the way in which they approach challenges. Through the study of successful figures such as Disney, Lincoln and Bachchan, students will learn to face difficulties through a positive perspective.	7	2
6	<b>Facing Failures</b> Significance of Failures: Failure is a student's daily source of fear, negativity, and depression. Students will be given the constructive skills to understand failure as formative learning experiences.	7	2
7	<b>My India My Pride</b> Glorious Past - Part 1: India's ancient Rishis, scholars, and intellectuals have made tremendous contributions to the world, they developed an advanced, sophisticated culture and civilization which began thousands of years ago. Students will learn the importance of studying India's glorious past so that they could develop a strong passion and pride for our nation.	7	2
8	<b>My India My Pride</b> Glorious Past - Part 2: Our ancient concepts can be used to seek revolutionary ideas and to generate inspiration. Students will develop a deeper interest in India's Glorious Past – by appreciating the need to read about it, research it, write about it, and share it.	7	2
9	<b>Learning from Legends</b> A.P.J. Abdul Kalam: Dr Kalam's inspirational life displayed legendary qualities which apply to students (1) Dare to Dream (2) Work Hard (3) Get Good Guidance (4) Humility (5) Use Your Talents for the Benefit of Others	7	2
10	<b>Soft Skills</b> Networking & Leadership: Students are taught the means of building a professional network and developing a leadership attitude.	7	2

11	<b>Soft Skills</b> Project Management: Students will learn the secrets of project management through the Akshardham case study. They will then practice these skills through an activity relevant to student life.	6	2
12	<b>Remaking Yourself</b> Handling Social Media: Students will learn how social media can become addictive and they will imbibe simple methods to take back control.	6	2
13	<b>Facing Failures</b> Power of Faith: Students will learn about the power and necessity of faith in our daily lives.	6	2
14	<b>From House to Home</b> Bonding the Family: Students will understand the importance of strong family relationships. They will learn how to overcome the generation gap and connect with their family more.	6	2
15	<b>Selfless Service</b> Seva: Students will learn that performing seva is beneficial to one's health, wellbeing, and happiness. It also benefits and inspires others.	6	2
<b>Total</b>		<b>100</b>	<b>30</b>

### Reference Books

1. **Integrated Personality Development Course (TextBook)**  
By Bochasanwasi Akshar Purushottam Swaminarayan Sanstha

### Course Outcome

**After Learning the Course the students shall be able to:**

1. Develop self-awareness, positive habits, and ethical values for personal and academic growth.
2. Apply soft skills such as communication, leadership, and teamwork in academic and social settings.
3. Demonstrate resilience by adopting positive approaches to challenges, failures, and life situations.
4. Appreciate India's cultural heritage and apply its values to become responsible and considerate citizens.

Course: BCA

Semester: 2

Prerequisite: Knowledge of Statistics

**Rationale :** Data mining is the essential component of decision support systems for the modern-day industry and business. These techniques enable the knowledge worker to make better and faster decisions. The objective of this course is to introduce the student to various Data Mining concepts and techniques. A database perspective of an open-source application is used throughout the course to introduce principles, algorithms, architecture, design, and implementation of data mining techniques. Learning this course would improve the employment potential of students in the information management sector.

W - Weightage (%) , T - Teaching hours

Sr.	Topics	W	T
1	<b>Fundamentals of data mining</b> Describe the concept of Data Mining, Data mining: History, strategies, techniques, applications, challenges of data mining, Future of data mining, <b>Describe types of Data:</b> Types of Data: Database Data, Data Warehouses, Transactional Data, Other Kinds of Data.	10	8
2	<b>Objects, Attributes, &amp; Statistical Description of Data</b> Explain Mining techniques and Attribute Relation File Format (ARFF): Data Attribute (Nominal Attributes, Binary Attributes, Ordinal Attributes, Numeric Attributes, Discrete versus Continuous Attributes. <b>Solve basic Statistical calculations on Data:</b> Mean, Median, and Mode; Measuring the Dispersion of Data: Range, Quartiles, Variance, Standard Deviation, and Interquartile Range using WEKA.	20	8
3	<b>Data Preprocessing</b> <b>Describe the aspect of data preprocessing:</b> Preprocess the Data, Major Tasks in Data Preprocessing. <b>Explain the concept of Data Cleaning &amp; Integration:</b> Data Cleaning: Missing Values, Noisy Data, Data Cleaning as a Process. <b>Data Integration:</b> Entity Identification Problem, Redundancy, and Correlation Analysis, Tuple Duplication, Data Value Conflict Detection and Resolution, Use WEKA for cleaning and integration	25	8
4	<b>Classification</b> <b>Explain Decision Trees and clustering:</b> Decision tree: ID3, Probability-based solving, Concepts of Clustering, Using WEKA for classification and clustering	15	8
5	<b>Data Warehouse &amp; OLAP Technology</b> <b>Apply the concept of Data warehousing using WEKA solution:</b> Data Warehouse, Differences between Operational Database Systems and Data Warehouses, Enterprise Warehouse, Data Mart, and Virtual Warehouse.	20	8
6	<b>Data Mining Tool: WEKA</b> Install and Configure WEKA Tool: Basic of WEKA, Installing WEKA, WEKA data file format, Data visualization in WEKA, Data filtering, Using the concepts of data mining with WEKA	10	5
<b>Total</b>		<b>100</b>	<b>45</b>

## Reference Books

1.	<b>Data Mining Concepts and Techniques</b> By Jiawei Han and Jian Pei   Morgan Kaufmann Publishers   Third
2.	<b>Fundamentals of Data Warehouses</b> By M.Jarke, M Lenzerni
3.	<b>Principles of Data Mining</b> By David Hand, Heikki Mannila, Padhraic Smyth , PHI
4.	<b>Data Mining: Methods and Techniques</b> By A B M Shawkat Ali, Saleh A, Wasimi, CENGAGE Learning
5.	<b>Data Mining Techniques</b> By Arun K. Pujari   Universities Press

## Course Outcome

After Learning the Course the students shall be able to:

1. Describe the concept of Data Mining & its attributes
2. Explain the concept of Data Cleaning & Integration and decision Trees and clustering
3. Demonstrate WEKA Explorer, Mining techniques and Attribute Relation File Format (ARFF).
4. Compare various Data Mining techniques available in WEKA

## List of Practical

1.	<b>Create following Three Tables.</b> <b>1. Salesman</b> SNUM SNAME CITY COMMISSION  1001 PIYUSH LONDON 12% 1002 NIRAJ SURAT 13% 1003 MITI LONDON 11% 1004 RAJESH BARODA 15% 1005 ANAND NEW DELHI 10% 1006 RAM PATAN 10% 1007 LAXMAN BOMBAY 09% SNUM: A Unique number assign to each salesman. SNAME: The name of salesman. CITY: The location of salesman. COMMISSION: The salesman commission on order. <b>2. Customer</b> CNUM CNAME CITY RATING SNUM 2001 HARDIK LONDON 100 1001 2002 GITA ROME 200 1003 2003 LAXIT SURAT 200 1002 2004 GOVIND BOMBAY 300 1002 2005 CHANDU LONDON 100 1001 2006 CHAMPAK SURAT 300 1007 2007 PRATIK ROME 100 1004 CNUM: A Unique number assign to each customer. CNAME: The name of customer. CITY: The location of customer. RATING: A level of preference indicator given to this customer. SNUM: A salesman number assign to this customer. <b>3. Order</b> ONUM AMOUNT ODATE CNUM SNUM CNUM 3001 18.69 10/03/99 2008 1007
----	---

3002	767.19	10/03/99	2001	1001
3003	1900.10	10/03/99	2007	1004
3004	5160.45	10/03/99	2003	1002
3005	1098.25	10/04/99	2008	1007
3006	1713.12	10/04/99	2002	1003
3007	75.75	10/05/99	2004	1002
3008	4723.00	10/05/99	2006	1001
3009	1309.95	10/05/99	2004	1002
3010	9898.87	10/06/99	2006	1001

ONUM: A Unique number assign to each Order. AMOUNT: Amount of order in Rs.

ODATE: The date of order.

CNUM: The number of customer making the order. SNUM: The number of salesman credited with the sale.

### Solve following request with the help of SQL query.

1. Produce the order no, a mount and date of all orders.
2. Give all the information about all the customers with salesman number 1001.
3. Display the information in the sequence of city, sname, snum, and Commission.
4. Calculate the average amount ordered.
5. Count the no. of salesmen currently having orders.
6. Find the largest order taken by each salesman on each date.
7. Find the largest order taken by each salesman on 10/03/1997.
8. Count the no. of different non NULL cities in the Customer table.
9. Find out each customer's smallest order.
10. Find out the customer in alphabetical order whose name begins with 'G'
11. Count the no. of salesmen registering orders for each day.
12. List all salesmen with their % of commission.
13. Display the no. of order for each day in the following format. dd-mon-yy.
14. Assume each salesperson has a 12% commission. Write a query on the order table that will produce the order number, salesman no and amount of commission for that order.
15. Find the highest rating in each city in the following format:
16. List all customers in descending order of rating.
17. List all salesmen in London who had at least one customer located there as well.
18. List all salesmen in London who didn't have any customer there.

## 2. PL/SQL Programs

1. Hello World Program in PL/SQL.
2. PL/SQL Program To add Two Numbers.
3. PL/SQL Program For Prime Number.
4. PL/SQL Program To Find Factorial of a Number.
5. PL/SQL Program to Print Table of a Number.
6. PL/SQL Program for Reverse of a Number
7. PL/SQL Program for Fibonacci Series
8. PL/SQL Program to Check Number is Odd or Even
9. PL/SQL Program to Reverse a String
10. PL/SQL Program for Palindrome Number
11. PL/SQL Program to Swap two Number
12. PL/SQL Program for Armstrong Number
13. PL/SQL Program to Find Greatest of Three Numbers

## 3. PL/SQL Cursor Programs

1. Write a Program for Implicit Cursor
2. Write a Program For Explicit Cursor

## 4. Trigger Programs

Create three tables

Student (Roll\_no, Name, Contact, Marks) Student\_copy (Roll\_no, Contact)

Student\_update\_copy (Roll\_no, New\_Contact, Old\_contact)

- A. Create a trigger to insert Roll no and Contact number of student on insertion of any record in Table Student.
- B. Create a trigger to insert Roll no New Contact number and old Contact number of student on updation of contact

	number in Table Student.
<b>5.</b>	<b>Procedure Programs.</b> <ol style="list-style-type: none"><li>1. Write a procedure to insert data in employee table.</li><li>2. Write a procedure to update contact number of employee in employee table.</li><li>3. Write a procedure to find name of manager for given employee id.</li><li>4. Write a procedure to get all the details (emp_id, name, city of residence, company name, city of work, manager name, salary) of given employee id.</li><li>5.</li></ol>
